☐ ONLINE SERIES
Road Safety Audit Awareness

October - November 2015

Who should attend?

This training is suitable for those who are interested in increasing knowledge in RSA and to raise awareness. It is also suited for those who are seeking for a refresher course. It is, however, not an accredited course.

- Road safety engineers
- Project clients
- Project managers
- Road safety advocates
- Graduate practitioners

System requirements

- PC-based attendees:
  Required: Windows® 7, Vista, XP or 2003 Server
- Mac®-based attendees:
  Required: Mac OS® X 10.6 or newer
- Mobile attendees:
  Required: iPhone®, iPad®, Android™ phone or Android tablet

Endorsements

This courses is recognised by ENGINEERS AUSTRALIA for Continuing Professional Development.

Engineers Australia members can choose to record CPD hours for attendance at this event in their personal CPD logs. Members should refer to Engineers Australia's CPD Policy for details of requirements and conditions.

For further information about this course, please contact the **Events Coordinator** on 03 9881 1680, or via email: training@arrb.com.au. You can also visit our website: arrb.com.au/workshops

Identifying road safety related risks and hazards at the design stage of new roads and upgrades, before they are constructed and open to traffic and on existing roads, is an incredibly cost effective way of saving lives on our roads. Regrettably, while this is widely recognised and many practitioners have heard of road safety auditing, capacity and capability in this technique varies wildly around Australia and internationally, from country to country. ARRB has been actively trying to address this situation through active partnerships in many countries.

Not all practitioners want or need to become Road Safety Auditors, yet understanding the process and the main concepts is vital in their role as a project sponsor (client). This course, allows practitioners to learn the basics about road safety auditing through a live online series of four webinars held fortnightly. Here you will be taken through all facets of a road safety audit, including vulnerable road users and how to write a road safety audit report. Webinars offer the distinct advantage of still being live, the participant can ask questions of the facilitator during the presentation and receive immediate or an agreed future response.

This course will incorporate historical (time-honoured) and absoloute up-to-date materials and concepts from around the worls and including Austroads 'Guide to Road Safety Part 6 – Road Safety Audit'.

What's included

- Live webinar
- Access to webinar recordings 24 hours after live webinar
- Email access to workshop facilitator throughout the duration of the course

PRESENTER

Paul Hillier
- ARRB's National Technical Leader, Incident Investigations and Strategic Reviews.

Paul Hillier has 25 years' experience in road safety and network management and maintenance fields and a wide appreciation of current and emerging road safety and risk issues. Paul joined ARRB Group in 2005 from the UK's Transport Research Laboratory (TRL) and before that worked for a decade within the highway management department of a large UK road authority.

Paul has a wealth of experience in road safety audits and/or investigations in Viet Nam, Philippines, China, Samoa, Thailand, Morocco, Dubai, India. Paul is also experienced in in investigating and reporting upon highway provision and maintenance related legal cases, through being involved as an expert witness in over 500 incidents in UK, Australia, New Zealand and the Middle East. He holds a first class honours degree in Civil Engineering, an Advanced Diploma in Business Management. He is a Member of the Institution of Public Works Engineers Australia and a Member of the Road Engineers Association of Asia and Australasia (REAAA). Paul has presented, & had papers published, on highway management & risk related issues throughout the world and regularly provides training in these fields.

SCHEDULE

Webinar 1 - Thursday, 15 October | 2 - 3pm

- Overview – introduction to the webinar series
- Context of RSA, why do we do it, how much will it cost, legal aspects
- Identifying and assessing road safety related hazards and risks

Webinar 2 - Thursday, 29 October | 2 - 3pm

- The 'nuts and bolts' of RSA – the key players and their roles, the stages of RSA, the process / what happens,
- Use of checklists
- Thematic audits – VRUs (pedestrians, bicyclists, motorcyclists etc.), maintainability audits, audits of traffic management (roadworks)

Webinar 3 - Thursday, 12 November | 2 - 3pm

- The 'paperwork' - writing a good RSA brief, what goes into a RSA report and how to 'read it'
- Considering the findings of a RS audit report – accept / reject?, rationalisation / prioritisation, mitigation options

Webinar 4 - Thursday, 19 November | 2 - 3pm

- 'Closing the loop' – closing down a RSA, and on-going monitoring and evaluation
- Contemporary issues, technology and the future of road safety auditing
- Recap of the main steps and processes
- Open forum - your chance to ask the presenter any questions you may have / to discuss any local issues

ARRB's Privacy Statement

Personal information provided by you may be held on a database and may be shared with others both nationally and internationally. Sometimes your details may be obtained from, or made available to external companies for marketing purposes. If you do not wish us to hold your details, please write to Privacy Officer, ARRB Group, 500 Burwood Highway, Vermont South, Vic 3133 or email on privacy@arrb.com.au If you choose to ask us not to hold your details, we may not be able to provide you with the services you require. A copy of ARRB's Privacy Policy is available upon request.

Terms and conditions

1.) No refunds are available at any stage 2.) Recording of the webinar as well as the presentation material will be sent to all paying delegates 3.) If a delegate can no longer attend, they can transfer the registration onto a friend/colleague 4.) If your payment has not been received at least 24 hours prior to the event start time, we will not issue your login details and we have the right to cancel your registration.

Nationally Recognised Training

ARRB is progressively obtaining formal accreditation for many of its workshops. **Click here** for further information.

ARRB Group supports the Helmets for Kids school program

ARRB is committed to the *UN Decade of Action for Road Safety*, and as part of our commitment, ARRB will donate $25 from every workshop registration to support the Helmets for Kids school program. For further information on ARRB's involvement visit: arrb.com.au
